* U1 user schedule is customizable. Please see full manual for details.

OPTIONAL

To set a temperature manually, overriding the programming

- Adjust temperature set point with Up or Down arrows.
- Press and hold the Hold/Return button for 2 seconds until "HOLD" is displayed.
- The set point temperature will override the pre-set schedule. To go back to a pre-set schedule, see Step 3.

If you need the full instructions, please visit **SunTouch.com** and click on the literature link.
